Mistake # 1 : You think she is too beautiful for you, so you don't even try

Have you ever seen an attractive woman and thought to yourself, "She's too hot. She wouldn't go for someone like me."

This is one of the biggest tricks the brain plays on our male brains.

Guys who gather the balls to approach women actually get phone numbers and dates from women they NEVER thought would be interested in them.

Unbelievable, but true.

And think about this: *If you think she's too beautiful for you, then probably most other guys are thinking the same thing.*

What this means is, that some of the hottest women are approached the LEAST. And so they are usually very receptive to a guy starting a "normal" conversation with them. But YOU must be the one to initiate the conversation.

Mistake # 2: You think approaching a woman that you don't know, will make you look like a *mawaali* kind of character that will upset her.

This is how "Nice Guys" think.

They think, "I'm a nice guy and I don't like making women feel uncomfortable. If I approach this woman she MAY feel uncomfortable, so I'd better not."

Mistake! Mistake! Mistake!

What's actually happening here ISN'T that you're being nice. What's actually happening here is you're SCARED, but you don't want to admit it.

Instead of admitting that you're scared, you justify your decision to avoid approaching by falling back on your identity as a "nice guy." You need to FREE YOURSELF of this delusion.

Read that again if you have to. I think you'll find I'm making sense.

As soon as you know how to approach the right way, no woman will think you're a mawaali or a jerk for approaching her. When you do it right, most women will actually feel flattered. She will feel, "You just made my day."

You must get over this Nice Guy thinking if you want what you're looking for.

Mistake # 3 : You think that if she is not interested in you she will be rude or will make fun of you

A lot of guys have this feeling in their head that if you approach a woman, and ask her out, and she's not interested, she may actually laugh at you. Or she'll tell her friends, and they will ALL laugh at you. Or she'll say something rude to you that will make you feel ridiculed.

But you know what most women ACTUALLY tell you if they're not interested?

Ready to hear it?

"I'm sorry, I am married." Or, "I'm sorry, I have a boyfriend"

That's it.

Sometimes they really are married, or really have a boyfriend. But sometimes it's not true, just an excuse.

But even when it's not true, is it such a big deal to hear this excuse from a girl? In fact it helps you save face and exit with your ego intact. So, it's not common to get a rude rejection.

Sure, occasionally (really rarely) you'll come across a rude woman, but this is the exception, not the norm. And even then, it's no big deal. Just move on to your next approach, and you'll soon forget about the bitchy one. It's all about internalizing this mindset.

Mistake # 4 : You think that you need to have a long and interesting conversation with a woman to get her phone number.

Many guys hesitate approaching women because they think that unless a woman has a 15-min long conversation with him that's totally amazing and mind-blowing, she will never give him her phone number.

Wrong.

Truth is, that within ONE MINUTE a woman has made up her mind. Either she is available and curious enough about you to give you her number, or she is not.

All you really need to learn is a sincere and direct approach that lets her know you're normal and interested in her.

And best part is, this can be done in less than two minutes. Isn't that a relief ? 😊

Mistake # 5 : You have conversations with attractive women but just don't take things to the next level.

When most guys are talking to an attractive woman, a strange thing happens.

They feel the pressure to NOT SCREW UP!

So they talk like a NICE guy about NICE topics in a NICE way...always afraid to turn the conversation sexual, or to suggest a date.

They hesitate because they don't want to RUIN a good thing.

But you know what?

The truth is, they ARE ruining it by not taking things to the next level.

A woman EXPECTS a man to take things further. And if you don't, you will end up with lots of "nice, friendly" conversations, but no sex.

This is the reality.

You can end up as just a FRIEND. Or you can be a potential LOVER. You can't be both.

Decide.

I know, because I've been there.

I used to have no clue about attracting women.

I know how it feels to have NO POWER to approach and talk to attractive women.

And I know how simple it is, once you know what the skills are, to strike up conversations with attractive women you see ANYWHERE...even in everyday places, like your local grocery store, restaurant, coffee shop, or even on the street.

I know how easy it is to literally fill your life with as many women as you want. And it's a damn good feeling.

Mail me if you have a question about attracting women.
